Dear Hiring Manager,

I am very happy to be applying for the position of full-stack developer.

I'm full stack developer specializing in C#, JavaScript(React, Node.js) and SQL development. I have 5+ years of experience developing complex applications and had the opportunity to manage projects based on C# and JavaScript.

Throughout my career, I have contributed to impacting business outcomes through effective organization, prioritization, and execution of key projects. My skills and qualifications match the Full Stack Developer requirements and will bring immediate value to goals.

In my last role as a Full stack Developer at Net Learning.

I have managed and operated a platform for 5,500 companies with a cumulative total of 80 million learners, achieving and maintaining a completion rate of over 90% for my clients And as the leader of the maintenance team, I improved the response method and followed up with the support team, resulting in a 35% increase in productivity and a 40% decrease in the number of requests..

Because my professional goals align with your mission and values, this opportunity is especially exciting. I believe my motivation, problem-solving and management abilities will support and drive your continued organizational success.

To demonstrate the scope of my career history and professional competencies, please take a moment to review my attached resume. I appreciate your evaluation of my credentials and subsequent response.

Sincerely,
Rei Kajiwara
